

Ecology, Evolution and Conservation Biology Seminar Series

Winter term 2024
Wednesday, 4:00 p.m.
LINC 302

This pair of 1-credit courses comprises an EECB seminar (FES/BOT/FW/IB 507) each Wednesday from 4 to 5pm, and a preceding discussion group (FES/BOT/FW/IB 599) Tuesday 4 to 5pm.

Course Faculty: Matt Betts, Tiffany Garcia, Andy Jones, Taal Levi, Dave Lytle

Sponsoring Departments and Units

Fisheries, Wildlife, and Conservation Sciences, College of Forestry, Forest Ecosystems and Society, Botany and Plant Pathology, Integrative Biology, OSU Research Office

January 15 // **Predators, prey, and parasites: understanding the repeatability of evolution**
Jocelyn Colella, KU Biodiversity Institute and Natural History Museum, University of Kansas

January 22 // **Survival in an Unpredictable World: the ecophysiology of birds in storms**
Jamie Cornelius, Integrative Biology, Oregon State University

January 29 // **Shark Infested Waters: Why that's a good thing**
Taylor Chapple, Fisheries, Wildlife, and Conservation Sciences, Oregon State University

February 5 // **From Awe to Understanding: Celebrating biodiversity's beauty and complexity as a tool to illuminate ecological function and awareness**
David Herasimtschuk, Freshwaters Illustrated

February 12 // **Horizontal Comparisons in Model System Research: Insights from lion behavior & conservation**
Stotra Chakrabarti, Biology, Macalaster College

February 19 // **Amphibian and reptile conservation and a national scale - developing multipronged approaches for species recovery**
JJ Apodaca, Executive Director, Amphibian and Reptile Conservancy
Founder and Lead Scientist, Tangled Bank Conservation

February 26 // **Only The Good Die Young: the ecology of juvenile wild animals**
Douglas Eifler, Erell Institute

March 5 // **Unraveling environmental and individual drivers of life history trait variation in long-lived vertebrates**
Roxanne Beltran, Ecology & Evolutionary Biology, UC Santa Cruz

March 12 // **Dealing with Darwin: or, Why Studying the History of Evolution, Ecology, and Conservation Biology Matters***
Kristin Johnson, Science, Technology, Health, and Society, University of Puget Sound

*Paul Lawrence Farber Humanities Endowment Fund Lecture, in partnership with the OSU School of History, Philosophy, and Religion
